

To whom it may concern,

I am writing to lodge a complaint regarding Sinclair's decision to require all of its affiliates to air a undeniably partisan attack film against John Kerry (Stolen Honor: Wounds That Never Heal) shortly before the election. The use of public airwaves for partisan political purposes immediately before an election is not only contrary to various FCC and election laws, but is equally offensive to the notions of a fair and democratic process. Please take immediate action to prevent Sinclair's conduct as soon as possible.

Sincerely,

Andy and Kelly Greene
